UNION UNIVERSITY.

Is located in the vicinity of Murfreesboro, on a high and beautiful *campus*, in the heart of one of the finest and healthiest regions in the State.

Turnpikes and Railroads from various directions form a net-work of communication with the different parts of this and the adjoining States, rendering it peculiarly easy of access.

The different Christian denominations have churches in the town, which the students attend; and the character of the inhabitants for high-toned manners, morality, and intelligence, recommends it to parents and guardians as a very desirable place to put those under their charge.

The Apparatus of the University which was entirely destroyed by the war, has been partially restored, and by the princely liberality of H. G. Scovel, Esq., and J. W. Thomas Esq., of Nashville, an entirely new set of Philosophical and Chemical Apparatus, will be ready by the opening of the fall term this year. This will give the student the advantage of all the latest inventions and improvements in this department.

ADMISSION.

We wish every Student who comes here to have work to do, and plenty of it—to keep constantly at it, and *to do it well.*

RULES AND REGULATIONS.

Each student is required to attend at least three daily recitations, unless excused by the Faculty.

Absence from recitation, or any prescribed literary exercise, without excuse, subjects the student to a demerit of from five to twenty.

When the demerits of any student amounts to fifty, the parent or guardian of such student will be informed of the fact; and when his demerits amount to one hundred, he will dismissrd.

Should a student drink any species of intoxicating drink, the Faculty are required to expel or suspend him immediately.

The use of profane or obscene language will subject the student to a reprimand, and if he persist, to suspension or expulsion, as the Faculty may decide.

No student is permitted to leave the vicintty on a visit to a neighboring town, city, or the country, without the consent of the Faculty.

MERIT-ROLL.

A minute of every recitation of each student during the term is kept, and from this record his standing is determined, and a circular containing the same sent to his parent or guardian—showing his deportment in and out of college, absences from recitation and other college duties, together with any other remarks that the case may require.

EXAMINATIONS.

During each collegiate year, two regular Examinations will be held; the first at the close of the First Term, just before Christmas; and the other in June, at the close of the Second Term; at each of which students are examined by a committee appointed by the Trustees and the Faculty, on all studies pursued during the previous term; and in no case will a student be allowed to advance unless so decided by the Examining Committee.

In this way alone, it is believed, can a diploma show that a student has had something more than the *opportunity* of acquiring a thorough education—in fine, that he has what the diploma calls for.

In order that this important end may be attained, the Faculty and Trustees of Union University earnestly and affectionately invite parents who have sent or expect to send sons here, guardians, teachers, and the public generally, to visit the Institution often during the different terms, to witness the method of instruction, and to examine the classes at any time. For those who may not be able to do this, they would urge the importance of attending, at least the two regular examinations.

The standing of the graduates, in every instance, will be put in their diplomas.

DEGREES.

The regular degrees conferred by the University are three:

1. The degree of *Master of Arts* is the highest Academic honor of the Institution. It is designed for those students who desire to pursue a full course of liberal education. Those only are entitled to receive it who pass through six of the schools of the University, and receive certificates of their proficiency from the professors of those schools.

2. The degree of *Bachelor of Arts* is designed for those students, especially, who desire to prepare themselves for the different professions, and are yet unable to pursue a complete course of liberal education. Those are entitled to receive who pass through five schools of the University, and receive certificates of proficieney from the professors of those schools.

3. The degree of *Bachelor of Philosophy* is designed for those students

who intend to engage in the active pursuits of life. The requirements for obtaining it are such as will confer a higher degree of intellectual culture, without the necessity of studying the ancient languages. It is conferred on those who pass through four of the schools of the University, and receive certificates of proficiency.

Besides these regular degrees, a student who has passed through any school of the University, and who is deemed worthy of it, is entitled to a certificate of proficiency from the professor of that school.

PREPARATORY DEPARTMENT.—PROF. PHILLIPS.

As it is an important object of the University to render the scholarship of those who enter her walls as thorough and accurate as possible, it is earnestly desired that all students should enter as low as the Preparatory Department, if practicable. In this way alone can a full sense of the responsibility and necessity of early correct habits of study and instruction be felt by all parties; for the Institution will then be justly held responsible for the superstructure reared on a foundation laid by her own teachers, and then the Faculty know and feel that "as they sow, they shall reap." Instruction is provided in the various Schools for students in this department.

TERMS AND VACATIONS.

The First term begins on the 1st Monday of September, and ends on the 24th of December.

The second term begins on the 1st Monday of January, and continues 24 weeks.

It is very important for many reasons, that students be present at the commencement of each term. Every student is required, immediately on his arrival, to report himself to the chairman of the Faculty. It is almost impossible subsequently to make up a few recitations lost at this time.

EXPENSES AND TUITION.

Tuition in the Preparatory Department ranges from $30 to $40 a year; in the University from $50 to $60 a year. Incidentals $2 and $5 a year, the former in the Preparatory Department, the latter in the University. Board can be secured in the vicinity of town for $3 50, and in town for from $4 to $5 per week.

Parents and guardians are earnestly requested not to furnish their sons or wards with unnecessary pocket-change. It is considered much better for all concerned, that some person should be selected to receive and disburse the funds of each student, particularly those who are quite young, or have been hitherto indulged.
